

The change in area code in Wyoming County is very confusing. The Pioneer Central School District, for one, consists of four buildings, located in two different counties (Wyoming & Cattaraugus). I have a student in the High School, which is Cattaraugus (716) and an elementary student in Wyoming (585). To call the school would be a long distance call. Also, with county lines so close in this area (Erie, Cattaraugus, Wyoming) it just doesn't make sense to make this change in this area.
